

Lemon Mandarin

Your own lemon tree rich in terps and THC.

- **Maximum potency.** Up to 30% THC.
- **Super intense flavors.** Loud and citrusy terp profile.
- **Robust and resilient.** Thrives in various growing conditions.
- **Grow your own tree.** The biggest in our photoperiod collection.
- **Extractor's treasure.** This strain will infuse your concentrates with vibrant citrus flavor.

This strain is for lovers of everything big. Lemon Mandarin is a result of our work crossing two delicious citrus strains: our keeper Lemonade cut and Tangie (Crockett's Family Farms selection). We made sure she combines the finest attributes of her parents such as a euphoric, invigorating effect, insane trichome production and a bittersweet citrusy terpene profile. Lemon Mandarin is Ideal for lovers of huge trees and XXL yields: she can reach heights of up to 200 cm while showing off extreme resiliency and lots of side-branching. Her aroma is a perfect blend of Tangie, lemon zest and the soothing sweetness of ripe mandarin, enveloping the senses in a profoundly pungent tangerine-lemon fragrance that lingers long after smoking. She performs perfectly both indoors and outdoors, and her impressive growth and aromatic allure make her ideal for growers seeking a truly outstanding strain with a complex citrusy fragrance. Based on our experience, we advise to perform Scrogging or any other type of support as the branches might not be able to handle the weight of the buds. Indoors, to achieve the maximum yield per plant, place no more than 2-3 plants per square meter, as this variety gets really bushy. She might also benefit from more frequent defoliation as she grows plenty of large, wide fan leaves and might need help with aeration later in the flowering stage.

Tech Specs

Taste:
Mandarin, Lemon, Sweet

THC:
25 – 30 %

CBD:
< 1%

Harvest EU Indoor:
500 – 600 gr/m2

Harvest US Indoor:
1.6 – 2 oz/ft2

Harvest EU Outdoor:
Up to 1200gr/plant

Harvest US Outdoor:
Up to 42oz/plant

Size:
XL

Height:
150 – 200 cm

Height US:
59 – 79 inches

Flowering:
9 – 10 weeks

Room:
Indoor/Outdoor

Gender:
Feminized

Genes:
Hybrid

Genetics:
Lemonade x Mandarine (Crockett's Tangie Selection)

Type:
Feminized
