

Z-Up Auto

A flavorful, exciting new terpene with crisp and refreshing lemon-lime soda taste.

- **Energetically powerful.** Up to 29% THC.
- **Fresh, flavorful terps.** Tangy, sweetly sour lime soda taste from a totally new terpene.
- **Extra sticky, super stinky buds.** Sticky flowers with a super sour, pungent smell.
- **XL Yields.** Easy-to-grow light feeder that produces a healthy harvest.
- **Dense, dank flowers.** Remarkably dense buds for sativa-leaning lineage.

Z-Up Auto is bursting with a brand-new terpene profile that takes the familiar lime soda flavor we all know and love to delicious new heights. With its refreshing flavor, super sour, pungent aroma, and amazing uplifting effects, this sativa-dominant hybrid leaves a lasting impression. With supercharged THC levels reaching 29%, she delivers a fast-hitting, long-lasting energetic high that instantly boosts mood and brightens the spirit—making her the perfect wake-and-bake or daytime companion. Her refreshing flavor profile is literally like nothing else on the market, blending tangy lime and sweet lemon citrus with a slightly sour kick for a unique taste that's like sipping on sparkling lime soda. She's a grower's dream, thriving in both indoor and outdoor environments, preferring warm, hotter climates and lighter feed. Z-Up's sativa-dominant genetics can make her a bit more demanding, but low-stress training (LST) and light defoliation can help maximize yields and control height. When cultivated correctly and with proper airflow, she'll reach heights of 70-120cm, producing a generous harvest—450-600gr/m² indoors or 60-300gr/plant outdoors—ensuring dense, super sticky, bright green buds with striking orange pistils sparkling with resinous trichomes. We recommend to keep temperatures stable between 22-28°C to optimize resin production and flavor. With her unique terpene profile that's unlike any other strain invented, Z-Up shines with citrusy soda-pop flavor, pungent aroma, and refreshing, uplifting effects. If you're looking for a fun, fresh sativa-dominant strain that's easy to grow, Z-Up Auto is where it's at—with a revitalizing, energetic kick and a one-of-a-kind terpene profile that will elevate your grow to refreshing new heights.
