

Pineapple Express Auto

Hands down the dopest dope you'll ever smoke!

- **Grow trouble-free.** An overall easy-going plant, a great choice for new growers.
- **With great size comes great yields.** The great size comes with insane yields that can reach 550gr/m².
- **Tropical terps.** Experience a mouth-watering blend of sweet tropical flavors and sour pineapple, just like a smoothie.
- **A cannabis christmas tree.** This plant grows on the taller side and can reach up to 140cm, so have plenty of space!
- **Perfectly balanced.** This strain provides a sweet peaceful and relaxing high, it won't leave you couch-locked or paranoid.

One of Fast Buds' original strains, highly stable, and a great choice for beginners looking to grow something fruity. A balanced Sativa-Indica hybrid with 20% THC, Pineapple Express delivers a stimulating yet not overwhelming high, mostly characterized by stimulating energy and flavorful tropical tastes. As a sturdy, easy-growing plant with substantial production, newbies and professional growers will be pleased with the results.

Bud description

Made up of rich green bud undermined by the dense crystals covering it. Letting off strong fruity smells combined with its stickiness, makes you wonder whether the buds haven't been soaked in a fruit smoothie before even being harvested.

Smoke report

Wholesome with uplifting effects. With approximately 20% THC, it has a balanced high that won't knock you out, leave you couch-locked or paranoid or anxious. Instead, it will take you aboard its train; relaxing and yet simultaneously stimulating. Great for a musical epiphany, writer's block, or any other artistic inspiration.

Plant Appearance

A vibrant rich green Christmas tree-like plant, with dense bud growths dotted around its stem and branches. Pineapple Express grows tall, sometimes reaching up to 1.4m in height! So if you want to let her grow to her full potential, give this baby the space she needs to stretch and expect full maturity around week 9-10.

Grow Tips

We recommend to watch your space with this strain, that can grow up to 1.4m, so make sure you've got the proper space to accommodate her. Watch the pH levels, and feed her adequately. Other than this, Pineapple Express is an easy-going plant and a great idea for those new growers looking for fruity relief.

Flavor

The plant will let off a strong sweet odor, far from unpleasant, and almost perfume-like. The taste will mirror this, sweet tastes that may not be as overwhelming as the smell but still very distinctive; tropical, sweet flavors, fruity, and sour hints of pineapple.
